As you can see, the program moves very quickly. You all have accomplished quite a bit thus far.

Don't lose focus as you still have a lot more to do. Get your second wind and don't lose steam as we begin the State process.

Now is the time to identify and get behind your candidates. Get involved in the campaign for the candidate

you are choosing.

I really want to thank those that have been serving you this week: NM Boys' State Band, Wait Staff, NMBS National Guard, and of course, the tremendous staff.

ARMIJO

City of Loyalty

Day 2 of boys' state 2013 started off at 6:10 am with a knock on the door to wake up. I then did my morning routines got ready and headed to the commons area of Armijo. After a few minutes we went to formation then colors rising. Color rising is important for government. The state then had its daily competition and Armijo placed 3rd allowing us to eat and vote 3rd. Breakfast consisted of Eggs, bacon, pancakes, hash browns, and drinks. This was a great breakfast to help the citizens of Armijo that would soon be the government of Armijo work.

The elections for city government were today. With the great Democracy type of government Armijo had majority votes for our new candidates. Man you got to love government. County government was also explained. By the looks of it Armijo understood it.

The city had a government meeting today. Some new ordinances were proposed "The Hygiene bill" as called, and "Ordinance 001". "Ordinances 001" has officially been passed and now used in Armijo's government. So citizens beware of the new law in our government.

Boys State 2013, and day 2 proved to be an extensive and laborious creation of our Government. Throughout the day we saw both our city Governments form, and the new beginnings of the County Governments. Watching the speeches and great leadership abilities shown by all is quite an impressive site. I never fail to be impressed by the amazing qualities shown by all of the candidates and their qualifications. To me Boys State is a great learning experience, teaching all of us Staters more and more of just how complex our very own government really is. In that, we are learning all of the ins and outs of the government and how involved we as citizens must be in the entire process. Boys State allows us to have real world practice at many important subjects including leadership, campaigning, and finally, just how important our national right to vote in our elections really is. Learning

all of these functions and duties is very important, especially as we return back to our hometowns, where we can further spread and teach our friends about what we've learned. So in short, remember Staters, no matter what position your running for, and what party you're from either Nationalist or Federalist, you do represent the people from your hometown who couldn't be here, or had the chance to be here. Make the most of this government, and learn as much as you can while you're here so twenty years down the road we can begin seeing the names of our candidates in the papers, really running for City, County, and even State jobs to serve the people.

As for Castillo's city government business, we have experienced many difficulties, as we have already lost 3 members of our city to unknown

reasons. Due to their loss we were forced to reelect another councilmen. In other news, we passed a City Ordinance that it is considered criminal for teens to be out late past curfew, as well as debating other possible ordinances including Street Racing and DWI. Another matter we have been approaching is the Inter-City Water rights, Commerce, and Development problem we face in our state. To my knowledge, our great city of Castillo has come to a resolution to propose to the sate tomorrow. Lastly, we collected taxes and are in the final stages of creating a city government budget, allotting money to the different groups in our city including Administration, Police, And Fire.

No man may walk through the same river twice. The river will not be the same and neither will the man.
